Sub: Approval of NHM District / City Program Implementation Plan (PIP) for the Financial Year (FY) 2022-23 & FY 2023-24- Reg.

Madam / Sir,

The Program Implementation Plan (PIP) for the FY 2022-23 & FY 2023-24 has been approved by Government of India. The approval includes workplan and budget for two years and brief description on implementation modalities of each activity. The component wise approved budgets for the State are given below:

	Amount (in Rs lakhs)	
NHM PIP	Budget Approved	
Poolwise summary	FY 2022-23	FY 2023-24
RCH Flexible Pool (including RI, IPPI, NIDDCP)	51,476.66	49,546.66
NDCP Flexible Pool (RNTCP, NVHCP, NVBDCP, NLEP, IDSP, NRCP, PPCL)	17,577.68	15,743.16
NCD Flexible Pool (NPCB&VI, NMHP, NPHCE, NTCP, NPCDCS, PMNDP, NPPCCHH)	17,097.27	14,680.03
NUHM Flexible Pool	8,768.05	8,504.95
Health System Strengthening (HSS) under NRHM	2,16,507.25	2,01,656.41
Total	3,11,426.91	2,90,131.22

Furhter, the abstract of district/ city wise approved Budget is attached herewith at Annexure 1 for information & necessary action.

The Major Revisions & other Features of PIP 2022-24 for facilitating PIP implementation are as follows.

- The major reforms made in the PIP is introduction of two year PIP cycle instead of one year as done in previsious years, reduction in budget lines to facilitate flexibility and easier implementation of SNA and a shift in focus from mere inputs to outputs. The major outputs agreed by the State in the form of key deliverables have been placed at Annexure-2.

- The **Conditionalities Framework** for FY **2022-23** and FY **2023-24** is attached herewith as **Annexure-3**. It is to be noted that Full Immunization Coverage (FIC)% will be treated as the screening criteria and Conditionalities would be assessed for only those State which will achieve 90% Full Immunization Coverage.

- All the support for **Human Resources for Health** (Especially Clinical Manpower) under NHM will be to the extent of gap found between manpower in position (through regular & outsourced mode) at a particular health facility against the staffing recommended in IPHS & corresponding health facility level caseload. NHM aims to strengthen health systems by supplementing and hence it should **not be used to substitute regular HRH.**

- All **unspent balance available** under NHM with the State as on 1st April 2022, has become a part of the approved budget of FY 2022-23. Similarly, all the unspent balance available as on 1st April 2023 would become a part of the budget for FY 2023-24.

- Action on the following issues would be looked at while considering the **release of first tranche of funds:**

  - State/District should not have more than **25% of the total release** (Central + State Share) as **unspent amount.**
  - State/District should have completed all the tasks related to SNA and **implementing Agencies mapping.**

- Action on the following issues would be looked at while considering the **release of subsequent tranche of funds:**

  - State must have spent **at least 75% of the total release** (Central + State Share).

- The State/District/ Other implementing agency **must ensure due diligence in expenditure** and observe, in letter and spirit, all rules, regulations, and procedures to maintain financial discipline and integrity particularly with regard to procurement; competitive bidding must be ensured, and only need-based procurement should take place as per PIP approvals.

  - The unit cost/ rate wherever approved for all activities including procurement, printing, etc. are only indicative for purpose of estimation. However, actuals are subject to transparent and open bidding process as per the relevant and extant purchase rules.
  - Third party monitoring of civil works and certification of their completion through reputed institutions shall be introduced to ensure quality. Also, information on all ongoing works should be displayed on the NHM website.
  - Ensure regular meetings of State and District Health Missions/ Societies. The performance of State Health Society (SHS)/ District Health Society (DHS) along with financials and audit report must be tabled in Governing body meetings as well as State Health Mission and District Health Mission meetings.

- The accounts of State/ District gurantee institution/ organization shall be open to inspection by the sanctioning authority and audit by the Comptroller & Auditor General of India under the provisions of CAG (DPC) Act 1971 and internal audit by Principal Accounts Officer of the Ministry of Health & Family Welfare.

- The activities approved under NHM for FY 2022-23 and FY 2023-24 is to be reflected in NHM-PMS portal. State / District to ensure that the valid data entries are made in the portal and it will be analysed for progress under NHM along with key deliverables.

- The approval for **new infrastructure** is subject to the condition that the State/ District will use **energy efficient lighting and other appliances.**

- The State/District shall submit **Non-Duplication Certificate** in prescribed format for all **civil works (New/upgradation).**

- The State/District shall submit **Non-Duplication Certificate** in prescribed format for all **equipment/instruments procured.**

- The State/District / other implementing agency must provide for **all the entitlement schemes** mandatorily. **No beneficiary should be denied any entitlement** because of any limitations of approved amount for such entitled bases schemes. Wherever required, the State must suitably increase the provision in such FMR. **The ceiling of 10% shall not apply in such cases.**

- The State/District/ other implementing agency to ensure that **Janani Suraksha Yojana (JSY) and Nikshay Poshan Yojana (NPY)** payments are made through **Direct Benefit Transfer (DBT) mechanism** through 'Aadhaar' enabled payment system or through NEFT under Core Banking Solution.

- Though approval for all activities have been given for two years but process can only be initiated immediately to undertake non recurring activities of FY 2023-24, especially civil works & procurement of EIF (if the facilities are ready in all aspects for operationalization). However, preparatory process may be initated for other approved activities of FY 2023-24 at the earliest to roll out of the activities in the beginning of FY 2023-24. **The implementation process for all activities of FY 2022-23 to be undertaken as usual.**

- The State/District must **ensure mandatory disclosures** on the State NHM website of all publicly relevant information as per previous directions of Central Information Commission (CIC) and letters from MoHFW.

- All approvals are subject to the **Framework for Implementation of NHM** and guidelines issued from time to time from MD, NHM and observations made in this document.

HWC Scoring for NHM Conditionality FY 2022-23 and 2023-24

Method for giving Score to the State for AB-HWCs (it has two Parts):

1. Indicator for achieving State Level AB-HWC operationalization Targets:
    a. 10 marks for achieving State Level AB-HWC operationalization Targets
    b. 10 marks for the states/UTs creating regular cadre of CHO position for AB-HWC
    c. 15 marks for achieving more than State Level AB-HWC operationalization Targets
2. Indicators for AB-HWC Scoring – max 75 marks – Average scoring of all the functional AB-HWCs will be taken to arrive at the same.

	6.1.1.2.4	Equipment for New 4 Beded NBSU	Per unit	2,75,000	2.75	0	-	0	-	Out of 94 FRUs there are 40 SNCUs and 33 NBSUs i.e. 21 FRUs have no NBSU/SNCU. So in view of saturating 90% FRU CHCs with NBSUs as per GoI mandate, it is proposed to establish new NBSUs in 17 FRUs. Besides new NBSUs are also proposed in 10 high case load Non FRUs with annual delivery load 1000. So total of 27 new NBSUs proposed during 2023-24. **Proposal in 2022-23**: 27 units (17 FRUs & 10 Non FRUs) **Proposal for 2023-24: No new proposal** **Cost norms proposed as per GoI Guidelines** **Shifted from RCH-3, Sl. Delivery till Nov. 21 in DHH Balasore - 8617 and in DHH Baripada - 8085. Since, there should be a 12 bedded SNCU per 3000 deliveries, and currently both SNCU Balasore and SNCU Baripada are 24 bedded units, it is proposed to expand the bed strength to 36 beds in these 2 units. **Shifted from RCH-3, Sl. 	New Activity	Equipment for replenishment of old equipment of SNCUs	Lumpsum	#########	301.05	0	0	0	0.00	**Proposal:** Since many SNCUs in the State have been established prior to 2014, which is **7 years earlier**, a lot of equipments have broken down and need replacement. As using those equipment after repeated repairs, is affecting the quality of equipment. Currently, there are 30 such SNCUs in the State, out of 45 functional SNCUs. Therefore, it is proposed to replenish a certain set of equipments in those SNCUs, based on gap assessment. **Proposal for 2022-23:** To replenish old SNCU equipment in all 30 old SNCUs which are established during 2007 to 2014. Including equipment for 29 KMC units @1.55 lakhs per unit **Proposal for 2023-24:** Requirement saturated in 2022-23, So no new proposal in 2023-24 **Shifted from RCH-3, Sl. No.30**

	New Activity	Equipment for high case load SNCUs (Bubble CPAP and Capillary method Bilirubin estimation meter)	Per unit	2,50,000	2.50	0	-	0	-	**Proposal:** Proposal: To provide 1 capillary method estimation of bilirubin estimation machine to 5 MCH level SNCUs (VIMSAR Burla, SCB MCH Cuttack, SVPPGIP Cuttack, MKCG Ganjam & PRM MCH Baripada) for accurate & quick estimation of bilirubin with lesser blood drawal. **Justification:** Although each SNCU is provided with a transcutaneous bilirubinometer, it cannot be used for appropriate estimation of bilirubin after one session of phototherapy. Moreover, if serum bilirubin estimation is done through Central laboratory, it is time consuming and needs drawal of more blood. Therefore it is proposed to give one capillary method estimation of bilirubin estimation machine to 5 MCH level SNCUs which is a newer technology and gives accurate estimation in a lesser time with lesser drawal of blood from severely sick newborns. **Cost per unit = Rs. 2,50,000** **Proposal for 2022-23: @Rs. 2.50 lakhs X 1 unit x 5 SNCUs = Rs.12.50 Lakhs** **Proposal for 2023-24: Requirement saturated in 2022-23, So no new proposal in 2023-24** **Shifted from RCH-3, Sl. 	7.8	Transportation cost for HIV testing of Exposed Babies (Below 18 months)	Per Case	1,000	0.01	7	0.07	5	0.05	**New Activity** Transportation cost for HIV testing of Exposed Babies (Below 18 months) **Justification:** Activity is proposed for testing HIV exposed children for HIV for at least 4 times during 2 years of age at ICTC at defined intervals. Expected exposed babies is estimated as 90% of identified HIV PW during 2019-20 & 2020-21. A total of 642 PW were identified as HIV positive, so the estimated HIV exposed babies is estimated at 90% of 642 = 578 babies. It is thus proposed to provide transportation cost of Rs.1000/- per baby for HIV testing at ICTC at the age of 45 days , 6 month, 1 year and 18 month. As 108 ambulances are used only for transportation of critical cases and also it doesn't have a drop back service, it is proposed to give additional transportation cost to these babies for ensuring HIV testing. **Budget: Rs1000 per baby x 578 exposed babies = Rs.5.78 Lakhs** **Proposal for 2023-24: Transportation cost for HIV testing of Exposed Babies (Below 18 months)** **Justification:** Activity is proposed for testing HIV exposed children for HIV for at least 4 times during 2 years of age at ICTC at defined intervals. A total of 300 PW were identified as HIV positive, so the estimated HIV exposed babies is estimated at 90% of 300 = 270 babies. It is thus proposed to provide transportation cost of Rs.1000/- per baby for HIV testing at ICTC at the age of 45 days , 6 month, 1 year and 18 month. As 108 ambulances are used only for transportation of critical cases and also it doesn't have a drop back service, it is proposed to give additional transportation cost to these babies for ensuring HIV

	1.3.1.15	Recurring cost for PICU	Per Annum	300000	3.00	0	-	0	-	**Recurring Cost for PICU** Currently there are 4 PICUs in the State at MC&H level, at MKCG MC&H Behrampur, VIMSAR Burla, SVPPGIP Cuttack and SLN MC&H Koraput. All 4 PICUs are already functional. Therefore, there is no civil or equipment cost required. Only recurring cost @Rs.3L per annum for each 6 bedded PICU is proposed in PIP 2022-23 and 2023-24. **Budget: Rs.3.00 Lakhs x 4 PICUs = Rs.12.00 lakhs** **Recomended in NPCC Meeting**
	1.3.1.15	Recurring cost for HDU &ETAT	Per unit	600000	6.00	1	6.00	1	6.00	**Ongoing Activity** **A. Pediatric HDU & ETAT** A 6 bedded Pediatric HDU & ETAT was approved in PIP 2021-22 for establishment at DHH of 10 aspirational districts. However, since a 12 bedded (8+4) Paed. Hybrid ICU (HDU+ICU) was sanctioned to be established in 29 DHHs in the State, under ECRP-2, the funds sanctioned under civil & equipment for HDU&ETAT for 10 aspirational districts were reappropriated and it was decided at State level to use the same funds for establishment of a Pediatric ETAT in all the 32 DHHs in the State to saturate all DHHs with a functional ETAT. There were 80 lakhs under civil and 48 lakhs under equipment approved in PIP 2021-22 for HDU & ETAT,which was reappropriated as Rs4 Lakhs per unit (Rs.2.5 lakh for civil and Rs1.5 lakhs for equipment) for establishment of ETAT at all DHHs. Therefore, there is no new proposal of HDU & ETAT. Recurring cost of ETAT will be met out of other hospital funds. **B. Pediatric Hybrid ICU** Under ECRP-2, the State has planned to establish 29 twelve bedded paediatric hybrid ICUs in the State at DHH level. Since civil and equipment cost of all the 29 units will be met out of ECRP-2, only recurring cost for these 29 units @12L per annum for each unit is proposed in PIP 2022-23 and 2023-24. Recurring cost of Rs.6 Lakhs per unit is proposed on the basis of annual recurring cost of one 12-bedded SNCU. **Budget: Rs.6.00 Lakhs x 29 Paed. Hybrid ICUs = Rs.174.00 Lakhs** **Recomended in NPCC Meeting**

However, under ECRP-2, Pediatric Hybrid ICUs were setup p at 29 DHHs in 2021-22. Therefore, funds approved against HDU & ETAT were reappropriated for setting up an ETAT at each DHH, i.e. 32 DHHs. New Proposal under MusQan: For MusQan certification, the State has targeted 32 facilities (19 DHHs & 13 SDHs) in 2022-24. In line with the same, equipment for strengthening of Pediatric OPD and ward in these identified institutions are proposed. Since Pediatric ward & OPD are very old establishment and no specific activities had been undertaken in the past for strengthening these units, therefore a standardised set of equipments as per GoI guidelines have been proposed for all the pediatric OPD & wards in the 32 identified institutions in view of MusQuan certification. Proposal for 2022-23: Equipment for Pediatric OPD @Rs.91000 per institution and for Pediatric Ward @Rs.165400 per institution for 32 institutions = Rs 256400 x 32 institutions = Rs. 82.05 Lakhs **Budget to be met out of Renovation/ Repair/ Upgradation of facilities for IPHS/ NQAS/ MUSQAN/ SUMAN Compliant as per NPCC Discussion**

	10.5.5	Sub-national Disease Free Certification: Malaria	Per District	200000	2	0	0.00	0	0.00	National disease free certification for Malaria Kendrapara & Jagatsinghpur have reported 0 indigenous case in 2019 and also in 2020. In 2021, Jagatsinghpur has reported zero indigenous case but Kendrapara is reporting two indigenous cases. The concerned cases do not show any direct travel link as per the investigation made by the district, which has to be verified. As such, It's a big achievement to maintain zero indigenous case status consecutively. These 2 districts are expected to continue this zero indigenous case reporting status in 2022-23. Hence as per GoI guideline, the name of these two districts have been proposed for disease free certification for malaria, provided they are validated by independent evaluation. Taking the current malaria epidemiological scenario into consideration, following budget is proposed : **1. FY 2022-23 -** Jagatsinghpur & Kendrapada @200000/- per district = **Rs.. 4,00,000/-** **2. FY 2023-24 -** Bhadrakh & Puri @200000/- per district = Rs.. 4,00,000/-

This ongoing activity continuing since 2020. In previous year it was sanctioned for 4 CHCs of 3 high endemic districts with a sanction of 36 FTDs who are catering their services to 11911 most vulnerable population residing in 116 inaccessible villages/ hamlets. Following are the key deliverables of this activity in 2021-22 (As per the data of period from April - December): 1. Total screening : 2635 supected malaria cases 2. Total positive detected for malaria : 33 3. All 33 malaria positive cases have been provided with complete treatment Along with their services in EDCT, the FTDs also have been engaged for monitoring and enhancement of LLIN use in the most vulnerable community. It may be noted that all the CHCS are having high API. Keeping in view the above deliverables, it is proposed to have support for this activity. Taking the inaccessible villages into consideration, 15 FTDs have been proposed per CHC for 9 CHCs of 4 high endemic districts namely Rayagada(2 CHCs), Kalahandi(3 CHCs), Kandhamal(3 CHCs), Ganjam(1 CHC). Estimated Budget per CHC: 1. Signboard for FTD @Rs.100/- per signboard x 15 nos = Rs.1500/- 2. Incentive for FTD @Rs.500/- p.m. per FTD x 12 months x 15 nos = Rs.90,000/- (Deliverable - EDCT, timely referral of complicated cases) 3. Not recommended. For consumables already approved at FMR 6.1.2.2.4** **New Activity:** 1. Entomology is an integral part of vector borne disease control programme, as entomological evidences decide the course of action and determine the mid course correction in programme implementation. State has only 3 entomological zones which become difficult to cater the need of 30 districts that are differently endemic for different VBDs. Along with the functionality of these 3 zonal units, establishment and functioning of additional zonal units are necessary to meet the growing entomological demand of the state. A proposal is therefore submitted by giving justification and budget for establishment of 5 new Zonal Entomological Units. Write up Annexure is given. The budget constitutes the estimates for the following components. 1. HR - Budget is integrated with NHM HR budget 2. Laboratory and Office Equipments @ Rs. 2.40 Lakhs per unit x 5 New units= **Rs. 12.00 Lakhs** 3. These 19 districts have placement of 150 VBDTS/MTS.) Name of the Activity: LQAS As per GoI guideline Rs. 1000 is sanctioned for each VBDTS for conducting LQAS for one round with a total of 2 rounds per year In Odisha, in some districts some VBDTS have been assigned with more than one block and therefore accountable for LQAS activity in their assigned blocks. As per GoI guideline in GFATM districts there are 150 VBDTS/MTS working for 208 blocks. In such case it will be justified to sanction Rs. 1000/Block for conducting the activity. 	1.1.5.1	Dengue & Chikungunya: Case management	Per Block	1000	0.01	8	0.08	8	0.08	Efficient case management requires proper and timely diagnosis. For dengue and Chikungunya, ELISA based diagnosis is the confirmatory method of diagnosis. This facility is available at 38 sentinel sites confined to DHHs, MCHs and RMRC. It is therefore necessary to send blood serum samples of suspected dengue/chk cases to the sentinel site laboratory. Approval: 1. Serum transportation: Dengue has become perennial public health problem in Odisha. Dengue upsurges and outbreaks are reported from various parts of the state frequently last 5 years. It is an unpredictable disease in the state and having reported from various eco geographical settings and previously considered low risk areas. Prevention and control of dengue / chikungunya is possible only through timely diagnosis followed by control measures. Under such circumstances to ensure the timely diagnosis of suspected dengue/ chikungunya cases to the nearest SSL serum transportation cost is proposed. cost is proposed which is to be kept at district level, to be given to the serum transporter for ta/da etc. @ Rs. 1000/- per block x 314 blocks= **Rs. 3.14 Lakhs** 2. The State of Odisha is doing the approx. 150 nos RCS every year. However, there are approximately 400 nos of beneficiaries for which RCS is not conducted yet. The reasons being- • For each RCS, the beneficiary need to Stay for average 3 months in Hospital (for Post operative recovery and physiotherapy) which may beneficiary find difficult. • Most of the beneficiaries need to travel 100 to 200 Kms in average for reaching the designated site for RCS and many a times, they are reluctant to travel so far. ASHA being the representative of the Health Dept residing at village level, it is envisaged that community engagement and counseling by ASHA (individual and family) will increase the footfall for leprosy deformity cases for RCS. The ASHA will get incentive @ Rs 500 per case of each complete Surgery. **Budget: 200 Cases x Rs 500/- = Rs 1.00 Lakhs**

PMDT & TBHIV Coordinator/ PPM Coordinator** **Justification:** Replacement of 104 nos of vehicle is required as the vehicles have completed more than 6 years and covered more than 100000 Km./vehicles have become off-road **Budget:** @Rs.70000/- per vehicle X 104 unit = **Rs. 72.80 lakhs** **Changes made as per States decision:** Justification for providing vehicle allowances instead of purchase of new vehicle for field staff (NTEP): As per GoI guidelines, used vehicles can be changed on completion of every 6 years term or running more than 1,00,000 KMs. As State is finding difficulty in maintenance of vehicles and condemnation/ disposal of old vehicles, following proposal has been placed for consideration. **Providing Vehicle Allowance to Staff :** Plan is to provide Rs.1000/- PM as vehicle allowances to concerned staff if s/he is using its own vehicle for field monitoring for recommended no of days as per the ToR and submit filed visit report to all concerned as per guidelines. This will be exclusive of POL cost claimed for field visits as per Society norms. **Justification for arriving the cost norms for vehicle allowance:** A new vehicle (Two Wheeler) is costing about Rs.70,000/- inclusive of all taxes etc. The age of vehicle for use is about 6 years as per GoI guidelines. So annual expenditure on the head is about Rs.12,000/- (Rs.70,000/ 6=11,666). Hence, as per the calculation, Rs.1000/- can be given spent on the head. Coverage: The provision will be applicable for those 104 Staff who has no vehicle / vehicle attained the age for condemnation. The same provision will be extended to others gradually. **Budget:** @Rs.1000/- per month per person X 12 months X 104 persons = **Rs.12.48 lakhs**

For capturing above data NCD screening register is highly required for following reasons 1. It is the mandate of GoI to maintain register. 2. For line listing & follow up of the patients up to down the line. 3. Periodic Distribution of medicine/drugs under free drugs distribution of Diabetes and HTN drugs. 4. Proper &correct monthly reporting. 5. Proper Supervision & Monitoring of common NCDs.ASHA of respective village will monitor periodically at least twice a year. In this context state also providing incentive to ASHA in a package manner. 6. Validation of NCD reportings.The MO portal entry is in initial stage so it is essential to capture the data in black and white. 7. In the year 2016-17 NCD screening register have supplied partially but now Odisha is targeting 100% of PBS

The base remuneration approved under HHM PIP against such staff shall be transfered to the state treasury till cointinuation of NHM. Additional amount towards salary as per regular cader norm shall be paid by state Govt. About 5000 out of 10000 paramedics sanctioned under NHM have been inducted to Govt system. Accordingly the base remuneration have been proposed as they will not receive Performance incentive in the regular system. However, in case any staff is not able to be inducted to the regular system due to any reason, they will continue with NHM as per the NHM remuneration structure.

Setting up MCH Wings

- Facilities having average annual bed occupancy of >70%, can propose for setting up dedicated Mother & Child Wings
- These MCH wings are to be set up as per the MNH Toolkit , which details the essential requirements and draft designs for guidance which are to be set up in the next 2-3 years
- The cost proposed should include complete project cost for infrastructure, equipments, beds, furniture, etc
- The HR Plan for running MCH wings also needs to be included.

NOTE: Bed Occupancy Rate =[{(total IPD during the year/No. of days)* Average duration of stay-in days}/Number of IPD beds]*100

Setting up of Modular OT in the Dept of Pulmonary Medicine, SCB MCH for management of TB patients requiring surgical intervention

Sl. No	Category	Description	Budget (in Lakhs)			Remarks
			2022-23	2023-24	Total	
1	Setting up of Modular OT in the Dept of Pulmonary Medicine, SCB MCH for management of TB patients requiring surgical intervention	**Justification:** Surgical management is one modality for treating and managing complication in Drug Sensitive and Drug Resistant Tuberculosis patients. Both in drug Sensitive and drug resistant TB Patients surgery is indicated in management of complication and sequelae. Expected Caseload: 0.5% of Drug Sensitive TB patients develop complications requiring surgery which is around 195 cases per year and around 70 nos. of TB patients in Drug Resistant group requires surgery every year. So the estimated number of cases requiring surgery will be around 265 per year. Moreover the SCB Medical College hospital also caters to huge number cases from the neighbouring States of West Bengal and Jharkhand. The Drug Resistant Pulmonary TB Patients are infectious and pose a risk for care providers and cannot be managed in regular OT. **Budget:** The Budget estimate for setting up of Modular OT with Bio HVAC System – Rs 2.20 Crore (90 Lakhs in Fy 2022-23 & 130 Lakhs in Fy 2023-24) **DPR attached in seperate DPR folder.**	90.00	130.00	220.00

										Proposal for 2022-23 **A. Ongoing initiative under the project:** (i) **Continuation of all 42 sanctioned PHC(N) Management projects** on basis of last year approval (at present, 38 PHC(N)s are operational in PPP mode out of 42 sanctioned number, two projects have been withdrawn due to poor performance of the partner Agency and selection of new partners for the vacant projects are in process and expected to be completed by Feb'21) **B. New additional proposal for 42 PHC(N) projects:** (i) **Sanction of 11 Addl. Staff Nurse positions for the remaining 11 PHC(N)s.** As these PHC(N)s are to be converted to HWC & DP during the year 2022-23. Presently these PHC(N)s have only one ANM each to perform the activities of Inst. Delivery, new born care, HWC activities, FP service, AH service, ANC, PNC, NCD activities and Counselling etc. To augment the services & activities under HWC & DP and adhering to HR mandate, it is proposed for one Additional Staff Nurse each for such remaining 11 PHC(N) projects to be engaged by the respective partner NGOs under the project. In the year 2021-22 NHM PIP, 31 Additional Staff Nurse positions were sanctioned out of 42 Projects as these are functional HWC & DP. **The PHC(N) wise performance on key health indicators is in the Write-up Annexure.** (ii) **Increase of NGO Management cost to 10%.** Additional 5% increase towards NGO management cost is proposed to make at par with other NGO projects under NHM. (iii) **Expanded scope for outreach services as per CPHC mandate (in 40 PHCs):** - These PHC(N)s are located mostly in hard to reach areas and local community
